Compass Points

Founded in 1984 by Larry Oliver and Peter Olsen, Compass Construction Inc. began as a small commercial general contracting firm in Cape Coral, Florida.

Through planned growth, the addition of skilled personnel, and an unwavering goal of being a quality contractor, Compass has grown from two partners to well over thirty professionals dedicated to making a client's construction experience completely satisfactory.

Hurricane Preparedness

By Laura Dieter
Project Manager
Compass Construction, Inc.

Now that we are officially into "hurricane season", it is time to think about what to do for ourselves to be prepared in case a hurricane hits our area.

Long before a hurricane is projected in the area, you and your family need to discuss an evacuation plan and identify where you can go if told to evacuate. You should also be aware of all available shelters in case you cannot evacuate. Before you evacuate be sure that you fill your vehicle with gas and prepare your home and boat inside and out.

The following is a list of a few essential items that should be included in your evacuation/emergency supply kits: First aid kit, Prescription medications, Bedding and clothing, Bottled water (3 gallons per person per day), Flashlight and extra batteries, Important documents, Canned food and can opener, Sanitary supplies.

After the storm has passed listen to the radio or TV stations for instructions. If you evacuated your home, return only when local officials tell you it is safe to do so. Once at home, inspect for damage and take pictures of the damage both inside and out. Keep in mind that damage may have occurred to water, sewer and electrical lines. Turn off the main breaker until you are sure these systems are safe. Avoid downed wires or standing water. Most importantly remain calm, patient and understanding of the situation and everyone around you as they are all dealing with the after affects of the hurricane. How well you weather a storm, will depend on how well you prepare now.

What is Success?

"To laugh often and much; To win respect of intelligent people and the affection of children; To earn the appreciation of honest critics and endure the betrayal of false friends; To appreciate beauty, to find the best in others; To leave the world a bit better, whether by a healthy child, a garden patch, or a redeemed social condition; To know even one life that has breathed easier because you have lived. This is to have succeeded."

-Ralph Waldo Emerson

Featured Project

Moose Lodge #2199 of Cape Coral

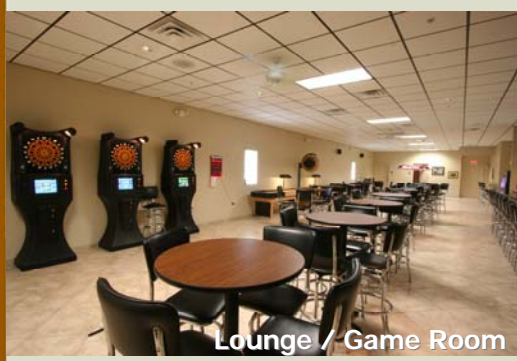

The new Moose Lodge #2199 located at 155 Santa Barbra N. in Cape Coral, FL sits on a fully landscaped 3.64 acres. The facility is over 12,000 square feet which includes a dining room, bar area, dance floor, offices, conference room and a children's room. The facility also contains a state of the art commercial kitchen.

One of the most unique features of the Lodge is the 1,800 square foot Tiki Hut pavilion located adjacent to the main building. The Tiki Hut hosts a wrap around bar, restrooms and top of line Bose sound system. The pavilion can also be completely enclosed by a hurricane rated roll down shutter system.

The project was completed more than 30 days ahead of schedule which allowed the Lodge to open earlier than expected. This along with staying well with in budget made it a very successful project for all those involved.

Pool Hours June—August 10am to 7pm
Open 7 Days a Week ▪ (239) 463-5759

Community Involvement:

Compass donates \$50,000 barn to help Cape home for children....

Destroyed by Hurricane Charley the badly damaged horse barn at Tender Loving Care Home for Children is rebuilt by Compass Construction. The new barn valued at \$50,000 has been donated by Compass with the help of sub-contractors... including Suncoast Contractor Supply, Acra Electric, Honc Destruction, Florida Gulfcoast Construction, Viking Construction and Crowther Roofing. The barn will help produce revenue for TLC from rentals of the horse stalls as it struggles with monthly responsibilities to care for the children daily.

TLC is a christian based home founded to keep siblings together when an unfortunate situation arises that separates children from their parents. The families of the children are facing some type of crisis that results in their inability to care for them. At times these children are presented to TLC with nothing but the clothes on their back.

TLC Barn under Construction

Announcements

Larry Oliver and Peter Olsen, owners of Compass Construction since its inception, are proud to announce that Vice President Teri Burleigh has been named partner in the company.

Teri has been with the company since 1990, and has over 23 years of experience in the construction industry. Her enthusiasm and management style, along with invaluable support and guidance from key members of the Compass team, have enabled her to achieve many career goals over the years. Most recently, she has been awarded a State of Florida Certified General Contractors License.

As a full managing partner, this newest endeavor, coupled with previous accomplishments and an invaluable support staff, will allow Teri and Compass the opportunity to participate in many more exciting building opportunities throughout the State of Florida.

Dan Luft, who has been an integral part of Compass Construction since 1988, will continue in his role as Executive Vice President - leading the company, providing his expertise and leadership to the Compass team, and offering the invaluable experience and knowledge that have made Compass the success it is today.

We are extremely proud of Teri and look forward to many more productive years with her here at Compass Construction, Inc.
